Ref No: T36ADSV4.doc

Revision Date: 5/30/2002
Supersedes: 12/7/2001

Technical Data Sheet **T-36A Striping Ink Thinner**

The **T-36A Striping Ink Thinner** is specially formulated to be used as a thinner for vinyl striping and marking inks.

The combination of solvents incorporated into this thinner is basically the same solvents used in the manufacture of vinyl striping and band marking inks. Small amounts of the **T-36A Striping Ink Thinner** can be used for thinning inks until the proper viscosity is obtained for application to the vinyl insulated wire. The amount to use varies on the color of the ink.

The **T-36A Striping Ink Thinner** is compatible with most inks.
